

PROJECT DESCRIPTION

Vumos Ltd is dedicated in continuous improvement in our operations and therefore we are all the time looking for new ways to serve our existing and potential customers better. This includes strong emphasis on our R & D and on new market evaluation.

To support these purposes, Vumos Ltd is executing European Regional Development Fund (ERDF) project where the project description is as follows:

Development of mobile bulk bag filling and unloading systems for difficult to handle materials. Market researches for packing equipment and unloading systems in certain areas.

For more information about Vumos's experiences on this particular project, please contact Elina Tervonen by email elina.tervonen@vumos.fi
